

**NOTES:**

The old 3rd hole was significantly shortened in the past due to the health and safety concerns in relation to stray balls leaving the course on the right side where the Muirhead Primary School is located.

This has left a 240m walk to the next tee. As result the next hole has become short with an awkward forced carry over the Darley Burn.

It is proposed to create a high quality par 3 in this location to allow for the creating of an improved golfing experience and improved golf holes.

Creating improved path connections with the school will help direct walker as best possible.
